

Emergency backpack h13_227

First aid backpack with internal pouches. Dimensions: W.49 x D.31 x H.57 cm. Complete with trolley.

Emergency backpack ideal for rescuers working in ambulances, for Red Cross volunteers and for doctors performing out-of-hospital first aid operations. Easy to carry thanks to the **included trolley** and the presence of **straps** that allow for **shoulder transport** as well. Supplied complete with **6 colored pouches** with transparent windows, to allow for the best organization of the material inside; the pouches are also equipped with **Velcro strips and elastic bands to secure the instruments**. The backpack features **1 central compartment** with zipper and elastic bands, 2 front pockets and 2 side pockets. In order to make it visible even in the dark, **yellow reflective strips** have been applied to the front.
