

Emergency backpack h655_16

First aid backpack for transporting instruments and medicines. Dimensions: W36.5 x D23.5 x H52 cm.

Emergency medical backpack ideal for out-of-hospital rescue operations. Suitable for transporting all the equipment necessary for any type of intervention. **Robust and solid** as a suitcase and of **easy and comfortable transport** like a trekking backpack. Made of **high-tech material**, which ensures lightness, but at the same time high resistance; in addition, it can be easily washed and disinfected. The front part is equipped with a **reflective strip** to ensure excellent visibility. All closures feature practical **zippers**. To ensure comfortable and safe transport, the backpack is complete with **adjustable shoulder straps** to fit anyone who uses it, **2 transport handles** (one side and one top) and **waist belt** with clip closure.
