

Emergency backpack h655_28

Backpack for managing airway emergencies. W.260xD.350xH.520 mm

Oxygen backpack and for materials for **airway management**, equipped with two front zippered pockets for masks, resuscitation bags and all the materials necessary for emergency management (material not included), with external access to the contents. Extremely durable zippers and rapid access to the oxygen cylinder in the main compartment, faster access in case of emergency; it is not necessary to fully open the backpack as the **integrated magnets** in the front access (in the front flaps) and inside the backpack facilitate handling. Equipped with ergonomic and soft handles for transport. Made of **lightweight, high-resistance technical fabric**, the fabric can be washed and disinfected. **Non-slip feet** ensure stable positioning.
