

Emergency backpack h687_30

Professional first aid backpack. Dimensions: W36 x D30 x H55 cm. With reflective strips.

Professional emergency backpack, specific for extra-hospital rescue operations. Designed to ensure maximum resistance even in extreme conditions and allow for **practical and simple use**. Made of **high-resistance PVC** and equipped with **reflective strips** and rubber inserts at the base to protect the part that rests on the ground. Can also be used as a bag, as the shoulder straps can be folded into a pouch. Equipped at the front with a rectangular pouch and **2 smaller pockets for radio and mobile phone**; central part with **double-zipper compartment for tools and equipment** and another large compartment with **five colored pouches** fixed with velcro that allow the equipment to be neatly divided and identified quickly.

Technical features:
