

Emergency bag h13_310

Medium-modular emergency bag in 600D polyester, 55x35x32 cm. 6 customizable compartments and waterproof bottom for professional and medical rescue.

The **H13_310 emergency bag** is a professional solution designed for rescue operators who require an organized, safe, and resistant transport system. Made of **600D polyester**, a high-density material resistant to wear and water infiltration, this bag ensures maximum protection of medical devices even in adverse environmental conditions.

The internal configuration is extremely flexible thanks to the **6 modular spaces** that allow for volume adjustment based on the type of equipment carried. The equipment is completed by a detachable internal bag with a transparent window for immediate identification of contents and four external pockets for quick access to first intervention devices.
