

Emergency bag with side pockets h687_18

First aid bag with side pockets with protected zipper. Capacity: 18L. Dimensions: 340 x 260 x H200 mm.

The rescue bag represents an indispensable product for rescue teams and healthcare professionals involved in rescue and life-saving operations.

The bag consists of a central compartment and two side pockets. In the central part, there is a lined high-density foam band, easily adaptable to any type of subdivision.

Inside the top flap, two elastic bands are fixed, allowing for the storage of oropharyngeal cannulas, scissors, and other accessories (not included).

The side pockets are closed with a protected zipper.
