

Emergency rescue bag h648_02

Emergency first aid bag. Color: red. Dimensions: W45 x D18 x H28 cm.

First aid bag ideal for use by healthcare professionals working on ambulances and for all first aid operations. Made of **waterproof material** to make it resistant to any weather conditions. Equipped with **reflective strips** on the front and sides, so as to make it clearly visible in case of use at night. In the back, it features a **transparent compartment for inserting documents**, while internally it is equipped with a **removable pouch fixed with velcro**, which can be removed when necessary to allow the transport of more equipment. There is also a **spacious front compartment** and **2 side pockets** that allow for excellent organization of the material inside. The zippers are waterproof and equipped with reinforced handles. To ensure comfortable and practical transport, the bag is also provided with a **handle at the top** and eyelets for possible insertion of a shoulder strap (not included).
