

Emergency shower with ABS eyewash h438_161

Emergency shower with ABS eyewash and shower head. Automatic opening via handle. Height: 245.6 cm

Emergency shower complete with eyewash, ideal for installation in workplaces at risk of contamination or contact with harmful substances. The entire structure is **painted in emergency green as required by the ISO 3864 standard**. The shower consists of a **galvanized steel pedestal** with an anti-corrosive **ABS shower head**. To activate the shower head, pull the **control handle** located at the user's height, which provides a continuous flow of water that must be closed manually. The eyewash features an **ABS bowl and 2 chrome-plated brass sprayers** connected to a water supply of at least 2 bar, providing aerated and low-pressure water. The eyewash is activated by **pressing the side control lever**; in this case too, the water flow continues until manually closed.

Technical specifications:

- Height: 245.6 cm
- Material: ABS with galvanized steel metallic components
- Color: emergency green, according to ISO 3864 standard
- Automatic shower opening via pull-cord control. Manual closing
- Eyewash opening via side activation lever. Manual closing
