

## Emergency shower with eyewash h438\_159

**Floor-standing emergency shower**, complete with **eyewash station**. Material: **stainless steel**.

**Emergency shower with built-in eyewash station**, to be installed in workplaces to allow rapid intervention in case of body or eye contamination with irritating or harmful substances. Consisting of a **galvanized steel pipe**, equipped at the upper end with a **stainless steel shower head**. The valve regulating the water flow is built into the shower head, which in turn is connected to an **operating rod with a stainless steel handle** that allows the activation of the shower. The **eyewash station is made of stainless steel** and features **2 chrome-plated brass sprayers** connected to the water mains, which provide an aerated and low-pressure water flow (min 2 bar). To open the eyewash sprayers, pressure must be applied to the **lateral operating lever**; closing must be done manually. The structure is painted in **emergency green color** in accordance with **ISO 3864 standards**. Fixing is to the floor.

### Technical features:

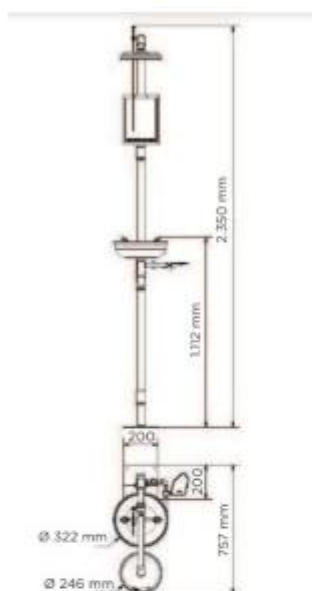

- Height: 235 cm
