

Emergency trolley h619_05

Emergency trolley in aluminum with drawers, handles, wheels, IV pole, oxygen cylinder shelf.

The emergency trolley is an indispensable element for those working in the healthcare sector. **The emergency trolley** consists of a base constructed in very high resistance copolymer, reinforced with specific load-bearing ribs; the uprights are in **extruded aluminum** profiles, with silver color oxidation surface treatment, the worktop is made of very high resistance copolymer with a perimeter liquid containment edge and the side panels are in oven-painted steel sheet with epoxy powder. The **trolley** is equipped with comfortable **ergonomic handles** in stainless steel, integrated into the worktop on both sides, to allow maximum maneuverability. Thanks to the **noiseless swivel wheels** with a diameter of **125 mm**, in thermoplastic rubber with thread guards, with double ball bearings. **The drawers in steel sheet** oven-painted with epoxy powder, equipped with aluminum **self-locking tilting handles** for opening and closing, with quick-snap coupling; furthermore, the drawers are fully opening, in three sizes, interchangeable with each other even in the post-sales phase, mounted on telescopic ball-bearing slides. Equipped with a 4-hook IV pole with 'accidental release protection', in chromed steel with one-handed friction adjustment, load capacity 2 kg, defibrillator shelf and oxygen tank support.

Technical features:

- Material: aluminum and steel
- 4 noiseless swivel wheels with a diameter of 125 mm, 2 with brakes
- With fully opening drawers
- 2 drawers h. 6.5 cm
- 1 drawer h. 13.5 cm
- 2 drawers h. 21 cm
- 4-hook IV pole with one-handed height adjustment
- Defibrillator shelf
- Oxygen tank support
- Cardiac massage board
- Centralized lock with disposable seal
- Worktop h. 95 cm
- Dimensions: 65.5x60.5xh.97 cm
- Available in different colors

INFORMATION

- Height in millimeters 970.000000
- Depth in millimeters 605.000000
- Width in millimeters 655.000000

- Material aluminum
