

Emergency trolley with 4 drawers h564_15

Emergency trolley with 4 drawers, IV pole and oxygen tank support. Dimensions: W75 x D65 x H106 cm.

Emergency trolley for hospitals or clinics. Body consisting of **4 epoxy-powder coated steel uprights**. Side and rear walls in technopolymer and self-supporting up to 100 kg. The upper part is equipped with a **work surface** (70x50 cm) in scratch-resistant technopolymer with a raised edge on 3 sides for liquid containment and a **defibrillator platform** (45 x 35 cm) in plexiglas, 360° rotating, equipped with a position locking knob and preparation for attaching monitor securing straps. Furthermore, also in the upper part, there are: a steel rod support with a height-adjustable 4-hook **IV pole**, an **oxygen tank support** for 3, 5 or 7 liters and a technopolymer **catheter-probe holder**. The left side is equipped with an ergonomic and anti-trauma aluminum **push handle** with plastic ends, while the right side features a **pull-out work surface** sliding on telescopic guides, complete with an ergonomic and anti-trauma handle, and a removable plexiglass **CPR board**. The front part is equipped with **4 interchangeable technopolymer drawers**, as they are fully extractable via telescopic guides and further complete with ergonomic and anti-trauma handles and convenient label holders. The drawers are also lockable via security seals (**1 pack of 100 seals supplied**). Finally, the base is equipped with **4 anti-scuff PVC corner bumpers**, **4 thermoformed solid rubber swivel wheels**, mounted on Ø 125 mm bearings, 2 of which with brakes and 2 antistatic. The materials used are of high quality and guarantee not only a good durability of the product, but also safety, hygiene and ease of use.

Technical features:

- Dimensions: W75 x D65 x H106 cm
- Material: steel, technopolymer, plexiglass
- With upper work surface dimensions 70 x 50 cm
- With 360° rotating defibrillator platform, Dim. 410x325x40 h mm
- With ergonomic and anti-trauma aluminum push handle with plastic ends
- With pull-out lateral work surface
- With CPR board. Dim. 600x430x8h mm
- Highly resistant 4-hook IV pole made of technopolymer, height-adjustable with one hand and easy to install on the trolley thanks to two painted steel supports. Dim. 1123/2100 h mm
- Strap for 3, 5 or 7 l tank support
- With technopolymer catheter-probe holder. Dim. 125x70x475 h mm
- Seal system closure: centralized drawer locking cylinder with seal system, practical and ergonomic allows for easy and simultaneous closing of all drawers
- Pack of 100 colored seals, progressively numbered
- Self-extinguishing technopolymer waste bin, removable with pedal-operated lid opening system. Capacity 15 liters. Dim. 300x175x575 h mm
- 3 technopolymer drawers, dimensions 460x420x150 h mm complete with label holders
- 1 technopolymer drawer, dimensions 460x420x300 h mm complete with label holder
- Base with 4 anti-scuff PVC corner bumpers
- With 4 thermoformed solid rubber swivel wheels, mounted on Ø 125 mm bearings, 2 of which with brakes and 2 antistatic
- Painting process compliant with UNI EN ISO 9001 standards

- Drawer colors: blue, yellow, green, and orange (as shown in photo)

INFORMATION

- **Height in millimeters** 1060.000000
- **Depth in millimeters** 650.000000
- **Width in millimeters** 750.000000
- **Material** Steel
