

## Emergency trolley with cylinder holder h615\_14

Hospital emergency trolley with cylinder holder and 5 drawers. Dimensions: W.85xD.52xH.96cm

Professional hospital emergency trolley particularly suitable for hospitals, medical clinics and nursing homes. This presented trolley is multifunctional for emergencies, as it is equipped with a cylinder holder, defibrillator support and CPR board. Robust and resistant thanks to its structure made of painted metal with 5 drawers, metal top part and base, work surface and walls in plastic material. The hospital emergency trolley is lightweight and practical to move thanks to the push handles and 4 swivel wheels. Particular advantages are the laterally pull-out work surface, n.2 waste bins, n.1 bottle holder, n.1 transparent document holder, n.1 pole equipped with platform support for defibrillator, n.1 height-adjustable IV pole, n.1 cardiac massage plate and bumpers built into the base.

### Technical Features:

- Material: metal and abs
- Dimensions: W.85xD.52xH.96cm
- Trolley weight: 80 Kg
- 5 drawers with centralized locking dimensions: 2 drawers 520x370x50cm complete with dividers 2 drawers 52x37x12cm complete with dividers 1 drawer 52x37x19cm
- 1 ABS work surface laterally pull-out
