

Energy-saving hotel minibar 33 liters h3451

33 lt h3451 energy-saving minibar (Class D) and low environmental impact. Silent compressor system with natural gas, Made in Italy and panel-ready door.

The **Energy-saving hotel minibar 33 liters h3451** represents the technological excellence of **Made in Italy** applied to environmental sustainability. This new generation minibar solves the problem of high energy costs thanks to consumption up to **7 times lower** than standard models, reaching a surprising **Energy Class D**. The secret of its performance lies in the use of a **natural refrigerant gas** with a global warming potential (GWP) over 430 times lower than traditional gases. Despite the compressor operation, the device guarantees **unparalleled silence**, making it ideal for hotel rooms where guest rest is a priority. The versatile structure allows for built-in or free-standing installation, with a panel-ready door available in various finishes for a perfect furnishing match.
