

Equippable C-frame desk height 76 cm h908_212

Single-seater computer lab table in steel and wood, 180x80 cm. Robust C-structure and large top for multimedia educational workstations.

The **H908_212 desk** is a single-seater table specifically designed for the professional setup of **computer labs**, school laboratories, and multimedia educational environments. Featuring a **"C" structure in steel tubing** with a diameter of 40 mm, the product guarantees high mechanical resistance and optimal stability during intensive use.

The **180 x 80 cm** work surface meets the need for large operational spaces, allowing the housing of monitors, keyboards, and accessory educational material without compromising ergonomics. With a height of **76 cm**, the desk falls within the parameters of **size 6**, making it suitable for secondary school students and adult users.
