

Equippable computer lab desk GR. 6 h908_202

Single-seater computer lab table in steel and melamine, 80x80 cm, size 6. Ergonomic C-structure for laboratories and training centers.

The **single-seater table H908_202** is a technical solution designed for setting up computer labs and educational laboratories that require high stability and efficient management of individual space. The configuration of the **C-structure** solves the problem of frontal obstruction, facilitating user access and offering greater freedom of movement for the legs during prolonged study sessions.

Technical features

- **Structure:** C-shaped legs made of steel tube with a diameter of 40 mm.
- **Top dimensions:** 80 x 80 cm, ideal for housing computer hardware and paper material.
- **Height:** 76 cm, corresponding to **Size 6** according to ergonomic parameters for secondary school students and adults.
- **Materials and finishes:** Ivory-colored top and metal structure in aluminum finish.
- **Resistance:** Designed for intensive use in collective contexts.

Available options

- Steel sheet CPU holder support with under-top fixing.
- Pull-out keyboard tray in black finish.
- 60 mm diameter cable hole with black polypropylene cap.
- Plastic technical cable tray for cable management.
