

Ergonomic dressing trolley with 3 shelves h492_38

Hospital trolley with 3 deep-drawn shelves and ergonomic handle. Dimensions: W. 1035 x D. 595 x h. 1270 mm.

The **dressing trolley** with **ergonomically optimized handle** is ideal to allow the healthcare operator both a horizontal and vertical grip, making the movement of the structure easy. Composed of a **continuous closed round tube frame** in **stainless steel**, with **3 deep-drawn shelves welded with a beaded profile**, equipped with an **anti-vibration panel in synthetic material**, with **rounded corners** towards the inside to allow for easy cleaning and maximum hygiene. The **4 round polyethylene bumpers** serve as impact protection and protect both the entire trolley and the surrounding walls against damage. Complete with **4 swivel wheels**, of which **2 with brakes, ø 125 mm**, with pin fixing.

Technical features:

- Dimensions: W. 1035 x D. 595 x h. 1270 mm
- Material: stainless steel
- Shelf dimensions: 800 x 500 mm
- Number of shelves: 3
- Useful distance between shelves: 278 mm
- Top shelf loading surface: 100 kg/m²
- Bottom shelf loading surface: 65 kg/m²
- Top shelf height: 850 mm
- Round tubular frame ø 25 mm
- Payload: 140 kg
- Number of wheels: 4
- Wheel type: swivel (2 equipped with brakes)
- ø wheels: 125 mm
- With ergonomic push handle
