

Evacuation chair with tracks h687_98

Evacuation chair h687_98 in aluminum (12.7 kg). High-grip tracks for stairs, 250 kg capacity, foldable to 90x33x107 cm.

The **Evacuation chair with tracks h687_98** is a stair-climbing device designed for the handling and evacuation of people with mobility limitations in emergency situations, when elevators are unavailable or out of service. Developed for rescue workers, healthcare personnel, and corporate safety officers, this chair solves the operational problem of vertical transport along flights of stairs, ensuring easy, fast, and safe evacuation for both the patient and the operator. The system integrates high-grip tracks that offer greater control and smooth movement during descent, as well as a multi-height extendable handle to improve grip. Constructed with materials such as aluminum (Al), PVC, PP, and PU, it features a weight of 12.7 kg, a load capacity of 250 kg, and a compact frame ideal for use in tight spaces. The setup includes Ø20 cm rear wheels to reduce friction on flat surfaces, Ø10 cm swivel front wheels with brake, an adjustable headrest equipped with securing belts, a reinforced adjustable seat in washable PVC, and a footrest. The device includes graphic instructions on the back of the headrest and complies with the European Medical Device Regulation (MDR).

Technical features

- **Materials:** Al (Aluminum), PVC, PP, PU
- **Weight:** 12.7 kg
- **Load capacity:** 250 kg
- **Dimensions in use:** 90 cm (length) × 53 cm (width) × 160 cm (height)
- **Dimensions when folded:** 90 × 33 × 107 cm
- **Height with handle extended:** 160 cm
- **Height with handle retracted:** 107 cm
- **Gliding system:** High-grip tracks for control and smooth movement during stair descent
- **Handle:** Multi-height extendable handle
- **Front wheels:** Swivel with Ø 10 cm diameter and equipped with brake
- **Rear wheels:** Ø 20 cm diameter to facilitate movement on flat surfaces
- **Support and adjustment elements:** Adjustable headrest with securing belts, reinforced adjustable seat in washable PVC, and footrest
- **Operational support elements:** Clear graphic instructions on the back of the headrest
- **Compliance:** Complies with the European Medical Device Regulation (MDR)
