

Evaporative cooler h932_16

Evaporative cooler for warehouses with cooling pad on three sides. Airflow: 3800 m³/h.

This **evaporative cooler** for **warehouses** is equipped with **three ventilation speeds**, **cooling pad** structured **on three sides** and guarantees **reduced power consumption** of only **185 Watts**. The product is equipped with a **75-liter water tank**, **continuous swing louvres** and **wheels with brakes**. Perfect for **areas up to 90 m²**, this fan is ideal for use in warehouses, storerooms and industries.

Technical features:

- Dimensions: W. 71 x D. 48 x H. 108 cm
- Weight: approx. 13.5 kg
- Airflow: 3800 m³/h
- Noise level: 60 dBA
- Power supply: 220 - 240V 1Ph - 50Hz
- Power consumption: 185 W
- Wheels with brakes
- Tank capacity: 75 l
- With 3 ventilation speeds
- Cooling pad on three sides
- Continuous swing louvres
- Wheels with brakes
- Suitable for an area up to 90 m²
