

Executive chair with gas lift h122_93

Executive chair in black padded fabric with polypropylene structure and headrest. Adjustable height: 110-118 cm.

The executive chair is ideal for furnishing executive offices and meeting rooms elegantly, ensuring comfort and stability. The chair has been specifically designed for those who spend several hours sitting at a desk and therefore need effective support to prevent the onset of rheumatic problems. **The wide seat is shaped in high-density foam and upholstered in black padded fabric, with adjustable depth. The backrest is adjustable in 4 positions and is upholstered in black breathable technical mesh with a PU headrest and fixed lumbar support.** The backrest support is made of aluminum, while the structure is in black polypropylene. The PU swivel castors allow the chair to be moved as needed. **Finally, the product features an adjustable height via a gas lift system.**

Technical features:

- Black polypropylene structure
- Aluminum backrest support
- Backrest adjustable in 4 positions
