

Expandable barrier h972_01

Lightweight and expandable barrier up to 2 meters, ideal for securing areas safely. Open dimensions: W 200 × D 39 × H 100 cm.

The **H972_01 expandable barrier** is a practical and versatile solution for **quickly delimiting work zones, restricted passages, or dangerous areas** in industrial, commercial, and public environments. **Made of polypropylene**, it offers a **lightweight yet resistant** structure, easy to maneuver and store.

Equipped with **wheels with brakes**, it allows for **fast and safe movement**, while the **lateral fastening system** allows multiple barriers to be joined together to create a wider fence. When not in use, it can be easily **closed and stored**, taking up little space (**40 × 39 × 100 cm folded**).

Thanks to its **high-visibility red/white coloring**, it ensures **clear and immediate signaling**, perfect for environments with temporary safety needs, such as construction sites, warehouses, parking lots, and restricted entrances.

Secure your spaces with the **H972_01 expandable barrier**! Lightweight, versatile, and easy to transport. **Buy now or request a personalized quote.**

Technical features:

- **Material:** Polypropylene
- **Color:** High-visibility Red/White
- **Maximum extension:** 2 meters
- **Folded dimensions:** W 40 × D 39 × H 100 cm
- **Open dimensions:** W 200 × D 39 × H 100 cm
- **Weight:** 4.80 kg
- **Wheels:** With brakes for greater stability
- **Coupling system:** Possibility of joining multiple barriers together

User benefits:

- **Immediate safety:** Ideal for quickly delimiting hazard or work areas.
- **Easy to transport:** Lightweight structure with wheels for effortless movement.
- **Space-saving:** Compact closure for convenient storage.
- **Flexibility of use:** Join multiple barriers to cover larger areas.
- **High visibility:** Red/white color for immediate signaling.

FAQ:

1. **Can it be fixed to the floor?**
No, but the wheels with brakes guarantee stability on flat surfaces.
2. **Can multiple barriers be connected together?**
Yes, thanks to the lateral coupling system, it is possible to join multiple units.
3. **How much space does it occupy when closed?**
Only 40 × 39 × 100 cm, perfect for being stored without clutter.
4. **Can it be used in warehouses and industries?**
Yes, it is ideal for delimiting aisles, machinery, storage areas, or restricted passages.

Mini buying guide:

If you need to **delimit areas quickly and effectively**, the **H972_01 expandable barrier** is the ideal solution. Thanks to its **lightweight polypropylene structure, wheels with brakes, and the possibility of joining multiple modules**, it offers **maximum practicality and safety** in any context.

Perfect for **construction sites, industries, parking lots, warehouses, and public places**, it guarantees **high visibility** thanks to the **red/white** coloring and **easy transport** thanks to its compact closure.
