

Expanding accordion safety barrier h972_05

Expanding barrier up to 4 meters with fixed foot, ideal for delimiting hazardous areas. Dimensions: L 400 × D 45 × H 108 cm.

The **H972_05 accordion safety barrier** is designed to **quickly delimit risk areas and prevent unauthorized access** in construction sites, warehouses, parking lots, and industrial spaces. Thanks to the **expandable design up to 4 meters**, it offers a flexible and safe solution for managing danger zones.

Made of **epoxy-painted steel**, it is highly **weather and UV resistant**, making it suitable for both **indoors and outdoors**. The **accordion system with rivets** allows for a **compact closure**, reducing bulk when not in use and facilitating transport and storage.

The **fixed foot** guarantees **maximum stability**, making it particularly suitable for **permanent or long-term delimitations**. The **high-visibility black/yellow coloring** ensures **clear and effective signaling**, increasing safety even in poorly lit environments.

Technical characteristics:

- **Material:** Steel with weather-resistant epoxy painting
- **Color:** High-visibility Black/Yellow
- **Maximum extended length:** 4 meters
- **Closure system:** Accordion with rivets, compact when folded
- **Foot:** Fixed for greater stability
- **Weight:** 17.90 kg
- **Dimensions:** L 400 × D 45 × H 108 cm

User benefits:

- **Safe and immediate delimitation:** Perfect for preventing access to danger zones.
- **Robust structure:** Painted steel for strength and durability.
- **High visibility:** Black/yellow color for effective signaling.
- **Space-saving:** Compact closure to reduce bulk.
- **Maximum stability:** Fixed foot for secure attachment.

FAQ:

1. **Is the barrier suitable for outdoor use?**
Yes, the epoxy painting protects the steel from rust and wear.
2. **Can the length be adjusted?**
Yes, it can be extended up to 4 meters depending on needs.
3. **How much space does it occupy when closed?**
Thanks to the accordion system, it folds compactly, facilitating storage.
4. **Is it fixable to the ground?**
Yes, thanks to the fixed foot, it is stable and suitable for prolonged delimitations.
5. **What are the recommended applications?**
It is ideal for construction sites, industries, warehouses, parking lots, and public spaces.

Mini buying guide:

If you need a **safe, resistant, and visible barrier**, the **H972_05** is the ideal solution. Perfect for **industrial environments, construction sites, and warehouses**, thanks to its **painted steel structure, compact closure system, and fixed foot**, it guarantees **protection and stability** in every context.

Easy to **transport and store**, this barrier is perfect for those who need a **fixed and safe delimitation** with an **extendable**

length up to 4 meters.
