

Extendible barrier 10 m h774_06

Extendible barrier with wheels. Dimensions: L.1065 x h.110 cm. Easy assembly, disassembly, and transport.

Extendible safety barrier, ideal for managing crowds in stadiums, amusement parks, or on the street during events. It consists of an **anodized aluminum structure** with stainless steel screws, equipped at the base with **wheels with a locking system**. **Can be assembled and disassembled with extreme ease** and without the need for an expert team. It folds quickly to minimize its footprint, so it can be transported anywhere. Ensures extreme **stability and resistance** even to high pressures.

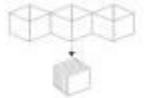

Technical features:

- Dimensions: L.1065 x h.110 cm
- Weight: 85 kg
- Material: 6060-T6 anodized aluminum and stainless steel screws
- Blue swivel rubber wheels, Ø100 mm; load capacity 180 kg
- Wheels with locking system, unlocking via simple brake pressure
- Simple and quick assembly
- Easy storage and transport
- Foldable in seconds
- Minimum footprint
