

Extendable barrier 8 m h774_05

Extendable crowd control barrier. Dimensions: W.803 x h.110 cm. Material: anodized aluminum.

Security extendable barrier specifically designed to manage and channel crowds during events, concerts, or sports matches. **Easy to transport** as it has a reduced footprint once folded and is easy to store. **Assembly and installation are also very simple**, in fact, it is not necessary to provide a specialized installation team, as one person is sufficient; moreover, the presence of wheels makes the barrier **easy to handle and position**. Finally, the structure made of **anodized aluminum** ensures **sturdiness and resistance** even following strong pressure and stress.

Technical features:

- Dimensions: W.803 x h.110 cm
- Weight: 64 kg
- Material: 6060-T6 anodized aluminum and stainless steel screws
- Swivel blue rubber wheels, Ø100 mm; load capacity 180 kg
- Wheels with locking system, unlocking through simple pressure on the brakes
- Simple and fast assembly
- Easy storage and transport
- Foldable in a few seconds
- Minimum footprint
