

Extensible barrier h63_01

Extensible barrier for area delimitation. Dimensions: L300 x H100 cm. Material: iron.

Extensible barrier ideal for delimiting specific areas and signaling potential hazards in indoor or outdoor environments. Characterized by high practicality of use since, being extensible, once closed it occupies **minimal space** thus facilitating storage. **Reflective** so as to be visible even at night. Made of **painted iron in white and red colors**.

Technical features:

- Dimensions: L300 x H100 cm
- Material: iron
- Color: white and red
- Extensible
- Reflective

INFORMATION

- **Material** metallo
- **advantages** con catarifrangente, estensibile
- **Length in millimetres** 3000.000000
- **Height in millimetres** 1000.000000
