

Extendible security barrier h774_03

Extendible barrier for stadiums and concerts. Dimensions: L.405 x h.110 cm. Self-supporting and with wheels.

Extendible barrier specifically for use at sporting events, concerts, trade fairs, fashion shows. Designed to delimit zones, channel long lines of people and prevent access to certain areas. It is characterized by its **robustness, stability and high resistance**. **Easy to assemble in a few steps** thanks to the intuitive assembly system that allows anchoring one barrier to another with extreme practicality; furthermore, the presence of **wheels with locking system**, allows it to be moved with ease and stopped safely. **Once folded, it takes up very little space** and can be transported anywhere.

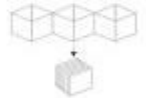

Technical features:

- Dimensions: L.405 x h.110 cm
- Weight: 35 kg
- Material: 6060-T6 anodized aluminum and stainless steel screws
- Swivel blue rubber wheels, Ø100 mm; load capacity 180 kg
- Wheels with locking system, unlocking by simple pressure of the brakes
- Simple and fast assembly
- Easy storage and transport
- Foldable in seconds
- Minimum bulk
