

Fall arrest work harness h1053_02

Fall arrest harness h1053_02 in 45 mm polyester and forged steel (1700 g). Total safety at height with quick-release buckles.

The **h1053_02 fall arrest work harness** is an essential piece of personal protective equipment (PPE) to ensure the total safety of operators working at height. Intended for construction professionals, maintenance workers, and industrial installers, this equipment addresses the need to operate in suspension or in areas at risk of falling with maximum stability and protection. Thanks to the structure in resistant 45 mm polyester webbing and the use of high-strength galvanized steel components, the device ensures exceptional structural hold. The complete adjustment system, combined with the practical quick-release closure on the lower straps, allows for an immediate and secure ergonomic adaptation to different body types, optimizing dressing times on the construction site.

Technical features

- **Strap/webbing material:** 45 mm Polyester
- **Stitch type:** High-strength polyester thread
- **Strap strength:** >22 kN
- **Metal parts material:** High-strength galvanized steel
- **Anchoring components:** Galvanized forged steel attachment rings
- **System tensile strength:** 15 kN
- **Net weight of the device:** 1700 g
- **Attachment points:** Rear eyelet and front attachment (for attention/frontal anchoring)
- **Upper adjustment systems:** Adjustable shoulder straps and height adjustment of the front collection eyelet
- **Central restraint system:** Adjustable safety belt
- **Lower restraint system:** Leg straps with adjustment and quick-release closure
- **Size S Dimensions (Clothing 42-50):** Height 1200-1650 mm, Waist circumference 600-1100 mm, Thigh circumference 300-600 mm
- **Size M/L Dimensions (Clothing 48-56):** Height 1500-1900 mm, Waist circumference 750-1200 mm, Thigh circumference 500-750 mm
- **Size L/XL Dimensions (Clothing 54-62):** Height 1800-2100 mm, Waist circumference 1100-1500 mm, Thigh circumference 700-900 mm
