

Fast food tray trolley h220_260

Professional tray trolley in **aluminum** with a capacity of **10 GN 1/1 trays**. Lightweight, maneuverable, and robust, it is equipped with 120 mm wheels with brakes. The ideal solution to optimize space and workflows in kitchens, canteens, and catering.

The **aluminum tray trolley** is an indispensable tool for logistical organization in dynamic catering environments. Thanks to its high-quality aluminum structure, it combines extraordinary lightness (only 21.6 kg) with a remarkable load capacity, making the transport of trays and pans extremely smooth and effortless for the operator.

Designed to accommodate **10 GN 1/1 trays or pans**, this trolley features a distance between levels of **115 mm**, offering the necessary space for moving culinary preparations or dishes. Stability is guaranteed by four professional 120 mm wheels, two of which are equipped with brakes to allow safe locking during loading phases or on slightly sloping floors.
