Fire extinguisher stand with base and projecting sign h42904

Mobile fire extinguisher stand in aluminum and chrome-plated brass. Height 100 cm, stable 38x23 cm base and projecting sign for safety signage.

This **mobile fire extinguisher stand** represents an essential technical solution for compliance with fire safety regulations in environments where it is not possible or desirable to drill into walls. The self-supporting structure is designed to offer stable and visible positioning of the fire safety equipment, integrating into professional contexts thanks to high-quality finishes.

The support is constructed with a **silver anodized aluminum profile** and **chrome-plated brass** supports, materials chosen to ensure mechanical strength and durability over time. The weighted base ensures the necessary static stability, while the top sign allows for rapid identification of the emergency point even from long distances.

Technical features

- **Total height:** 100 cm
- **Support base:** 38x23 cm with high-resistance powder-coated finish
- **Materials:** Silver anodized aluminum panel and profile, chrome-plated brass supports
- **Signage:** 20x20 cm double-sided projecting sign included
- **Installation:** Mobile self-supporting system, requires no mechanical fixing
