## Fire extinguisher stand with base h42906

Aluminum and iron fire extinguisher stand, height 180 cm. Modern design with signage plate and stable base for public buildings and HoReCa.

This **fire extinguisher stand** represents a professional solution with a refined design for positioning fire protection equipment in environments where it is not possible, or desirable, to drill holes in the walls. The structure combines the aesthetic lightness of **aluminum** with the solidity of an **iron base**, guaranteeing optimal stability even in high-pedestrian-traffic contexts.

The support is designed to optimize the visibility of the extinguisher thanks to a total height of 180 cm and the integration of a **top plate** dedicated to safety signage. The simplified assembly system allows for quick installation, making it ideal for setups in offices, hospitality facilities, and modern commercial spaces.

## Technical features

- **Total height:** 180 cm
- **Upright material:** Aluminum
- **Base material:** High-resistance iron
- **Base dimensions:** 33 x 25 cm
- **Signage plate:** 15 x 15 cm
- **Configuration:** Freestanding, easy assembly
