

## Fire hydrant cabinet h702\_05

Empty fire hydrant cabinet in red painted steel (37x18x61 cm). Designed for wall-mounted installation in industrial and civil outdoor environments.

The **empty fire hydrant cabinet** is a fundamental protection module for the fire safety of perimeter and outdoor areas. Made of **high-resistance steel** with a red protective finish, the structure is designed to preserve the integrity of water devices from atmospheric agents and impacts, ensuring immediate accessibility in emergency situations. The configuration with preparation for **wall fixing** allows for quick and stable installation on various wall supports.
