

Fire-retardant seats for sports facilities h36_69

Fire-retardant seat for sports stands in polypropylene with backrest. Dimensions: W.440 x D.350 x H.350 mm. Available in various colors.

The grandstand seat is an ideal product for stands, arenas and sports halls and is essential to ensure extreme comfort for spectators, while complying with current **safety regulations**. Thanks to the **sturdy fire-retardant polypropylene structure** the seats are extremely safe in case of emergency and resistant to atmospheric agents thanks to **UV protection**. The **comfortable backrest** allows for maintaining a correct posture, making it ideal for prolonged sitting.
