

Fire-retardant task chair h449_58

Office task chair with fire-retardant fabric, featuring adjustable backrest and height. Dimensions: W.47 x D.60 x H.95-108 cm.

The task chair is a piece of furniture designed specifically for those who spend their **working hours sitting at a desk**. The product is designed for office workers, IT technicians, and administrative operators, as it allows for maintaining a **correct posture**, thus preventing rheumatic pain and back damage. **The office chair** features a swivel base with wheels and a height-adjustable backrest with a permanent contact mechanism. It is possible **to adjust the height from 95 to 108 cm** via a gas lift mechanism. The modacrylic fiber upholstery makes the product fire-resistant.

Technical features:

- Upholstery material: modacrylic fiber
