

First aid backpack h13_314

First aid backpack in 600D polyester and PVC (38x24x50 cm). Modular organization with transparent pockets and reinforced bottom for professional rescue.

The **H13_314 first aid backpack** is a professional equipment designed for operators who need an organized, resistant, and quick-to-move storage system. The structure is made of **water-repellent 600D polyester** with an integral **PVC** coating, a combination that guarantees high protection against mechanical wear and water infiltration. Thanks to the high-visibility red coloring and ergonomic design, it is an indispensable tool for emergency management in dynamic contexts.

Technical features
