

First aid backpack h648_55

Professional first aid backpack in waterproof material with 5 transparent modular pockets, side compartments and reflective strips (25x20x46 cm).

This **first aid backpack** has been specifically designed for emergency operations in outdoor environments and adverse weather conditions. Made of **high-resistance water-repellent material**, it guarantees maximum protection of internal medical devices against rain and humidity. Internal organization is managed by a system of **5 modular pockets with transparent lids**, which allow for logical categorization of material and immediate visual identification, essential in stressful operational situations. The structure includes two main compartments and two side pockets to optimize the load of rescue devices.

Technical features

- Dimensions (side pockets excluded): L. 25 x D. 20 x H. 46 cm
- Organization system: 5 modular pockets with transparent lids
- Compartment configuration: 2 main compartments and 2 side compartments
- External material: High durability waterproof fabric
- Base protection: Technical fabric on the bottom designed to prevent water penetration
- Safety: Integrated reflective strips for high visibility
