

First aid backpack h655_15

Firefighter backpack complete with internal content. Dimensions: W37 x D25 x H52 cm.

First aid backpack, ideal for use by firefighters and healthcare workers. Suitable for rescuing victims involved in fires, as it is made of material suitable for withstanding high temperatures. **Practical, comfortable and easy to carry** thanks to the 2 handles, one on top and one on the side, and the shoulder straps. Internally it is equipped with **6 pouches** in different colors, 5 of which are smaller and one larger to hold the resuscitator; all pouches are equipped with a **double-slider zipper** and **velcro attachment** to be stored neatly in the backpack. On the external front there is a **large expandable pocket**, suitable for holding additional equipment, and **two reflective strips** that make the backpack clearly visible everywhere. Included in the supply is an **equipment kit** for first aid operations.

Included accessories:

- 2 adhesive plasters, 2.5 x 5 cm, according to DIN 13019-A
