

First aid backpack h655_39

Professional backpack for out-of-hospital first aid in technical fabric, 27x21x45 cm. Modular organization with transparent labels. This professional backpack is specifically designed for out-of-hospital rescue operations, offering a robust and organized solution for medical personnel and firefighters. The compact structure is optimized for integration into safety cabinets and trunks of emergency vehicles, ensuring minimum bulk without sacrificing operational accessibility. Transport is facilitated by the dual configuration with adjustable shoulder straps and a reinforced top handle, ideal for dynamic interventions in variable scenarios.
