

First aid backpack with trolley h687_20

First aid trolley backpack in Cordura with bags. Capacity: 48 L. Dimensions: 620 x 350 x H.410 mm $\pm$ 10 mm

The first aid backpack is ideal for healthcare workers, doctors, rescue teams and for all those involved in emergency response operations.

The product is particularly suitable for mountain rescue and for reaching uncomfortable and narrow areas. The backpack is equipped with a trolley system that allows for the transport of even heavy equipment, without having to sacrifice the comfort typical of a backpack.

Thanks to the pouches, medicine and small equipment can be easily available. Excellent portability thanks to the trolley system, 2 handles and shoulder strap. 1 Padded main compartment, equipped with straps for securing a cylinder (max 2 liters, not included) and removable internal dividers that allow the compartment to be divided into a maximum of 9 parts. 1 transparent pocket with zip closure on the inside of the closing flap of the main compartment. 2 Side pockets with zip closure, of which: - 1 equipped with internal pocket with zip closure - 1 equipped with detachable transparent bag with zip closure, fixed by means of strap inserts. 1 Transparent front pocket with strap closure. 1 Front pocket with zip closure. 1 Top pocket with zip closure and carrying handle. Padded shoulder straps and lumbar belt with quick-release buckle to improve load distribution. Reflective inserts for greater visibility. Reinforced bottom.
