

First aid bag h687_32

Emergency accessory bag. Dimensions: W36 x D13 x H20 cm. Capacity: 10 lt.

Bag for rescuers, nurses and healthcare workers performing first aid operations outside hospital facilities. **Comfortable, practical** and made of **high resistance** materials. It allows for the best organization of equipment inside to enable work to be carried out in a practical and fast way. Detachable semi-rigid internal structure. Compartment with zip closure and transparent window located at the junction between the upper and lower part (approximate compartment size 280x60x80 mm). 3 pockets on the inside of the upper flap, two of which are mesh. An elastic band is sewn above one of the two mesh pockets to better secure small accessories. Removable fabric element with strap inserts for attaching small bags. Reflective inserts to increase visibility. Handle and shoulder strap to facilitate transport.

Technical features:
