

First aid bag with pockets h687_19

Emergency first aid bag with 11.5L capacity ideal for rescue teams. Dimensions: 440 x 230 x H.190 mm.

The rescue operation bag is ideal for transporting medical equipment and resuscitation aids in emergency situations, such as road accidents, injuries, or rescue operations.

The product features a large central compartment with two side pockets. A padded and removable container is located in the central compartment, complete with dividers for arranging small accessories. **This container can be placed in the upper part to leave room for a resuscitation bag and masks (not included).** Inside the top flap, two elastic bands allow for the arrangement of various accessories. The bag is equipped with **three pockets, one front and two side, closed with protected zippers.**
