

First aid rescue backpack h690_17

Professional 32.7 liter rescue backpack in 1000D polyester. Full opening, MOLLE system and internal divider for emergency interventions.

The **professional rescue backpack** is an advanced technical solution designed for emergency operators and rescuers who require maximum efficiency in organizing medical tools and first aid materials. The **1000D polyester** structure guarantees high resistance to wear and mechanical stress in critical operational contexts. The **full opening** configuration, assisted by a **central divider flap**, allows an immediate view of the contents, drastically reducing access times to the devices needed during the intervention.

Technical features

- **Dimensions:** W. 31 x D. 47 x H. 22.5 cm
- **Capacity:** 32.70 liters
