

Five-seater polypropylene copolymer bench h15925

5-seater waiting bench in polypropylene copolymer. L 259 cm. Made in Italy metal structure for high-traffic public areas.

The **five-seater polypropylene copolymer bench** is a technical furnishing element designed to maximize seating capacity in large collective spaces. Designed to solve the operational problem of managing large flows of people in **airports, railway stations, hospitals, and post offices**, this bench offers a rational and robust solution. The shells are made of **polypropylene copolymer**, an extremely durable and impact-resistant high-density plastic material, mounted on a solid metal beam. Entirely **Made in Italy**, the product is intended for a professional target requiring high standards of hygiene and mechanical resistance in indoor contexts.

Technical features

- **Shell material:** Resistant polypropylene copolymer
- **Supporting structure:** Metal with black painted beam (40x80 cm)
- **Capacity:** 5 seats with independent seating
- **Height:** 80 cm
- **Width:** 259 cm
- **Depth:** 59 cm
- **Variants:** Shell available in various colors
- **Production:** Made in Italy product
- **Use:** Indoor spaces
