

Fireproof five-seater copolymer polypropylene bench h15917

Fireproof five-seater polypropylene bench for large waiting rooms. Metal structure and resistant shells. Made in Italy. Dimensions: 259x59xH80 cm.

The **fireproof five-seater copolymer polypropylene bench** is a professional furnishing solution designed to maximize capacity in large public and private spaces. Made with **copolymer polypropylene** shells, a plastic material renowned for its extreme durability and mechanical resistance, this seating meets the needs of high-traffic environments. The structure rests on a solid black painted metal beam that guarantees impeccable stability along the entire length of 259 cm, solving the operational problem of orderly management of numerous seats. Thanks to the **Class 1 fireproof** certification, the product is ideal for **post offices, banks, hospitals, clinics, and airport or railway waiting rooms**, offering a superior **Made in Italy** quality standard.
