

Five-seater fire-retardant polypropylene bench h15904

Five-seater fire-retardant polypropylene bench. Available in various colors. Dimensions H.80 x L.259 x D.59 cm. Made in Italy

The **five-seater fire-retardant polypropylene bench** represents the definitive solution for managing large flows of users in extensive waiting areas. Specifically designed for **offices, medical practices, hospitals, and clinics**, this seating combines a **polypropylene copolymer** shell — a plastic material known for extreme durability and resistance — with a solid metal structure. The configuration on a single black painted beam solves the operational problem of spatial disorder, ensuring stability and comfort for five occupants simultaneously. Compliance with **fire-retardant Class 1** makes it a safe piece of furniture that meets current fire prevention regulations for professional and healthcare environments.

Technical characteristics

- Capacity: 5 seats
- Shell material: High-resistance polypropylene copolymer
- Structure material: Metal
- Fire-retardant properties: Class 1 certified
- Support beam: Black painted with 40x80 mm profile
- Total width: 259 cm
- Depth: 59 cm
- Total height: 80 cm
- Variants: Available in various colors
- Origin: Made in Italy
