

Fixed double-tape post for indoor use h16228

The aluminum post with cast iron base and double tape is available in various fixing solutions and in different tape finishes and colors

The **stanchion with barrier tape** is an essential element for managing the flow of people in an orderly manner. Ideal for both private and public use.

Thanks to the tape release system, it is easy to use.

Each stanchion has a **4-way connection system**, consisting of 1 retractable outgoing tape and 3 incoming connection systems. This system allows you to delimit areas based on the flow of your guests, without having to move and install additional posts.

The installation of two tapes, placed at staggered levels, is designed to ensure greater safety.

To best suit your environment, you can choose from various finishes, such as: white, red, blue, black, anthracite, satin chrome and polished chrome.

Technical features:

- Tape length: 2x 2.3 m
- Tape width: 50 mm
- Post height: 1000 mm
- Total weight: approx. 12 kg
- Structure: fixed with ground anchoring via screws
- Tube material: aluminum

Upon request the product is available with the following fixing systems:

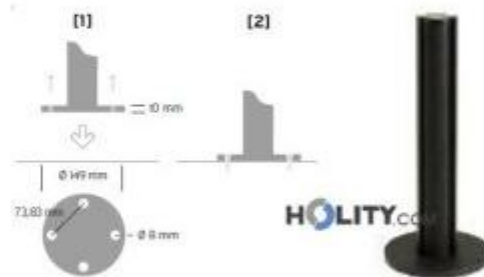

- **Removable post:** mounting surface anchored to the ground, with removable post and cover plate for the hole when the post is not in use.
- **Magnetic post:** post equipped with magnetic base for fixing to the stainless steel plate mounted on the ground with special double-sided adhesive film or with central screw.

For this product it is possible to customize the tape by inserting your own text or logo. Contact us to find out more.
