

Fixed height gynecological chair h930_76

Professional fixed-height gynecological chair in painted steel, with gas spring adjustments, Trendelenburg function and integrated step.

The **h930_76 fixed-height gynecological chair** is a solution designed for the setup of clinics and medical offices that require a **stable, essential and highly functional** examination station. The supporting structure is made with an **epoxy powder-coated steel** frame in white, which guarantees resistance to loads and durability over time. The design is optimized to combine patient comfort with the operational ergonomics of healthcare personnel, thanks to a precise mechanical adjustment system.

Operation is supported by a **gas spring** system that allows tilting the backrest from 0° to 80° and managing the seat position in the **Trendelenburg (0°–25°)** and **anti-Trendelenburg (0°–15°)** positions. The standard equipment includes fundamental accessories for daily clinical practice, eliminating the need for subsequent integrations for basic functions.
