

Floating pool lane 20 m h1009_09

Floating lane h1009_09 20 m for swimming pools with Ø85 mm PP discs and AISI316 stainless steel cable. Anti-turbulence, space-saving for amateur use.

The **Floating pool lane 20 m h1009_09** is swimming facility equipment designed for training sessions and is ideal for amateur pools. This device solves the operational criticality of wave management and reduced equipment storage space, thanks to discs designed to reduce turbulence and a small diameter that facilitates transport and storage. Intended for managers of sports centers, swimming facilities, and private or amateur pools, the 20-meter long lane consists of Ø 85 mm discs (14 per meter) in top-quality polypropylene (PP) with additives to resist chemical and atmospheric agents. The structure is assembled on a Ø 6 mm plastic-coated AISI316 stainless steel cable and is integrated with high-density polyethylene PE-HD floating balls (7 per meter). The item is supplied in standard colors blue, red, and white, with the possibility to request other colors upon quote.

Technical features

- **Type and use:** Floating lane suitable for training (ideal for amateur pools)
- **Lane length:** 20 m
- **Disc material:** Top-quality polypropylene (PP) with additives resistant to chemical and atmospheric agents
- **Disc dimensions and density:** Diameter Ø 85 mm (14 discs per meter)
- **Disc function:** Designed to reduce turbulence
- **Assembly support:** Plastic-coated AISI316 stainless steel cable, Ø 6 mm
- **Floats:** High-density polyethylene (PE-HD) floating balls, 7 per meter
- **Standard colors:** Blue, red, white
- **Color variants:** Other colors available on request and subject to quote
- **Physical properties:** Reduced disc diameter to facilitate storage and transport
- **Stainless steel springs and tensioners:** (on request and subject to quote)
