

Floor stand for drip-proof bags h358_05

Floor display for steel umbrella bags.

The **floor stand for drip-proof bags h358_05** is a professional floor display designed to provide a neat and safe welcome inside commercial activities during rainy days. The structure is entirely built in **satin steel**, a material chosen for its aesthetic elegance and ease of cleaning, while ensuring high resistance to wear and humidity. This display solves the operational problem of wet and slippery floors, allowing customers to bag their wet umbrellas in a practical way. The design includes a **top sign attachment**, allowing for the integration of instructions or welcome messages, making it an ideal solution for managing order in entrances.
