

Floor-standing leaflet display h738_60

Rotating floor-standing display in aluminum and methacrylate, with 6 A4 pockets convertible to 1/3 A4. Height 181 cm, ideal for lobbies and exhibition areas.

This **floor-standing leaflet display** is designed to optimize the organization and distribution of information material in professional environments and high-traffic areas. Featuring a slender vertical structure, it solves the need to display catalogs and brochures while maintaining an extremely small footprint. The combination of **methacrylate** and **anodized aluminum** gives the support ideal structural rigidity for intensive use in HoReCa, retail, and exhibition contexts.
