- **Reduced maintenance:** Thanks to the pressure treatment of the wood and the robustness of the polyethylene.

FAQ :

- 1. Is the bench suitable for public areas?**
Yes, it is ideal for public parks, schools, and play areas, in compliance with the EN 1176 standard.
- 2. Does the wood require maintenance?**
No, class IV pressure-treated wood is weather-resistant and requires very little maintenance.
- 3. Do the colors of the side panels fade in the sun?**
No, the polyethylene is treated to resist UV rays, keeping the colors bright over time.
- 4. Is it safe for younger children?**
Yes, the bench is designed to ensure stability and safety, even for younger children.
- 5. Can the bench be used indoors?**
Of course, although it is designed for outdoor use, it can also be used in indoor environments such as playrooms and school gyms.

Mini buying guide:

When choosing a bench for play areas, ensure it complies with the **EN 1176 standard**, which certifies the safety of products intended for public spaces. Carefully evaluate the materials: a **seat in class IV pressure-treated wood** guarantees weather resistance and durability, while **polyethylene side panels** add robustness and color without requiring frequent maintenance.

The **h763_18 bench** is the ideal solution for those who want to combine **functionality and creativity**. Thanks to its backless design and flower-shaped sides, it fits perfectly into parks, schools, and green areas, offering children a safe and stimulating space to play and socialize.

Flower-shaped children's bench, backless bench for playgrounds, EN 1176 certified bench, treated wood children's play equipment, wooden bench for public play areas, urban furniture for playgrounds, bench for schools and green spaces, bench with polyethylene side panels.
