

Foam corner protection h972_46

Yellow/black EVA foam corner guard, self-adhesive, ideal for the protection of dangerous corners. Dimensions: L 400 x D 150 x h 15 mm.

The **foam corner protection h972_46** is the ideal solution for securing sharp edges, dangerous corners, and impact points in industrial, logistical, or commercial environments. Made of **lightweight and resistant EVA foam**, it guarantees an excellent shock absorption capacity, preventing damage to people and materials.

The high-visibility **yellow and black** two-tone surface acts as a **warning signal**, improving visual risk perception even in low-light conditions. The **75 x 2 mm** opening allows the protection to fit perfectly on sharp edges and rectangular corners, providing secure and durable coverage.

Easy to install thanks to the **pre-applied adhesive strip**, it requires no tools or technical intervention. The protection is **REACH compliant**, therefore free of harmful substances and safe even for sensitive environments.

With a **length of 400 mm**, a **width of 150 mm**, and a **thickness of 15 mm**, it is perfect for columns, metal shelving, protruding edges, and other potentially dangerous surfaces.

Protect your work environment in a simple, safe, and compliant way. Order the h972_46 foam corner protection now or contact us for customized multiple supplies.

Main technical features:

- **Material:** high-density EVA foam
- **Color:** yellow and black (high visibility)
- **Length:** 400 mm
- **Width:** 150 mm
- **Thickness:** 15 mm
- **Angular opening:** 75 x 2 mm
- **Weight:** 0.10 kg
- **Fixing:** adhesive
- **Compliance:** REACH
- **Application:** indoor use

User benefits:

- **Effective protection:** against accidental bumps and impacts.
- **Quick installation:** thanks to the adhesive surface.
- **Safety colors:** for maximum visibility.
- **Lightweight and flexible:** easily adapts to every corner.
- **Safe and compliant:** with REACH regulations.

FAQ:

1. **Where can I install the corner protection?**
On columns, shelves, walls, or projections with 90° corners, in industrial or commercial environments.
2. **Is it easy to mount?**
Yes, it is applied directly with the integrated adhesive without tools.
3. **Is it impact resistant?**
Yes, EVA foam is designed to absorb shocks and prevent damage.

4. Is it suitable for outdoor use?

No, the product is intended for indoor use.

5. Is it available in other formats?

Yes, different lengths and thicknesses are available upon request.

Mini buying guide:

When it comes to ensuring safety in industrial or logistical environments, it is fundamental to protect all critical points, such as sharp edges or exposed corners. EVA foam protections like **the h972_46 model are ideal for preventing accidents and improving visual hazard signaling**. Choose the format suitable for your space, ensure it complies with regulations, and prefer adhesive solutions for quick application without invasive interventions.
